RIBBED STEEL DOORS

Available non-insulated (525) or insulated (525V/525S) with environmentally safe polystyrene insulation conformed to panel. Ideal for commercial and industrial building applications.

- Polystyrene insulation available on 525V and 525S.
- 3-stage paint process delivers a virtually maintenance-free finish.
- Tog-L-Loc® advanced design, eliminates the need for antiquated welds and rivet construction, improving rust and leak prevention.
- Injection-molded lite frames with integral weatherseal are durable and seal against the elements. Many glass options available for visibility, privacy or energy efficiency.

Panels are prepainted inside and out to inhibit rust. Hot-dipped, galvanized steel is painted with primer and given a tough oven-baked polyester top coat to provide the most rust-resistant steel door available. Ten-year warranty against rust-through.
**COLOR OPTIONS**

- Standard White
- Chocolate

*Due to the printing process, colors may vary.*

**CUSTOM PAINT OPTION**

Color Blast® offers more than 1,500 Sherwin-Williams® color options to complement your building design. This durable two-part paint system has been thoroughly tested and is backed by a five-year warranty.

*Due to solar reflective formulation to meet greater than a 38 LRV, some colors may not be available.*

**FEATURES**

**STANDARD HARDWARE**
- TPE astragal in aluminum retainer
- Commercial 10-ball steel rollers (nylon tires available)
- Steel step plate and lift handle
- Galvanized steel end stiles
- Inside slide lock for increased security
- 2" (50.8 mm) or 3" (76.2 mm) track
- 10,000 cycle springs
- Galvanized aircraft cable with minimum 7:1 safety factor
- Variety of track configurations to meet building specifications
